## **Moving Van Parking, Portable Storage**

Individuals moving into a Rosslyn Heights East unit or residents moving out may apply to Arlington County for permission to park a moving van or truck on the street (usually N. Meade St.). The county requires a minimum of 72 business hours to process a permit. Its [Moving Van Permit](#) web page details county requirements and provides an online application form that must be submitted in person.

Similarly, individuals may apply to the county for a permit for placement of an on-street portable storage device for temporary storage needs. The county requires a minimum of 72 business hours to process a permit. See the county web page at [Portable Storage Device Permit](#) for details and an online application form.

Moving van parking and storage device placement are issues between an individual and Arlington County. The RHE Board has no jurisdiction over use of public streets.
